Thompson Valley High School Attendance Contract

We believe regular attendance can have a positive effect on (Student name) academic success. Research has shown that there is a positive correlation with regular attendance and achieving passing grades. Good attendance is more than showing-up and physically being present. It requires (Student Name) to have the appropriate classroom materials, be an active learner while attending each class, and scheduling/attending ELO time as necessary.

REQUIRED FOR ALL STUDENTS

- Attendance at all assigned classes is mandatory. (Student Name) is expected to be present during each class for the entire scheduled time.
- The parent/guardian agrees to report each absence by calling the attendance office @ 613-7990. All excused absences must be reported within two (2) school days including the day of the absence.
- Attendance will be taken daily in each class, and parents will be notified by the attendance office automated system if (Student Name) is absent in any class unless the parent/guardian has previously called to report the absence.
- **Parent/guardian will be notified by automated system when (Student Name) has received four (4) unexcused absences in one or more classes and this contract will be activated.**
- **Activation Date:**

ATTENDANCE PROBATION

- If (Student Name) receives four (4) unexcused absences in one or more classes there will be a mandatory meeting with an administrator.
- After this meeting, any additional unexcused absences will result in (Student Name) being monitored through Check and Connect.
- Failure to meet the expectations of check and Connect will result in one (1) day of in school suspension.
- **After in school suspension has been served, any additional unexcused absences that interfere with (Student Name) performance in classes (credits and/or grades) will result in being withdrawn from the class.**
